Dear Dr. Henney,
I am writing to express my concern over the PFDA's regulation of genetically engineered (GE) food. I request that the agench? current policies be changed, and I support all the points in docket #00P-17x1 CP1

All GE foods should be labeled so I am informed and have a choice.

GE foods should not be assumed to be generally recognized as safe and should have mandatory pre-market safety testing to determine the long-term impacts to human health and the environment.

(Additional Personal Comments:)
